

The events of February 2022 in Ukraine have not only shocked the people of our country, but all of mankind. The explosions that we heard in Kyiv on the first day of the attack were echoed on all continents. By questioning the very existence of the Ukrainian state, denying its independence and sovereignty, the Russian Federation violated the fundamental principles of the United Nations Charter and undermined the entire system of international security and international law.

We are eternally grateful for the all-out support of Ukraine in its struggle for the rule of law, democratic values, European integration aspirations and Euro-Atlantic choice.

Special thanks to the Association of Judges of Czech Republic and the Association of Judges of Georgia, for the financial support to Ukrainian judges.

Ukraine will win! Europe will win! Peace will prevail!

Віримо, що разом ми
переможемо.

«Все буде Україна».

«Слава Україні!
Героям слава!»
